1916

FOREWORD TO VOLS. IV AND V.

The Public Archives Commission of Delaware herewith submits volumes four and five of the Military Series of Delaware Archives.

These volumes contain lists, substantially full and complete, of the officers and men who represented this State in the second war with England, commonly called the War of 1812, which memorable contest sealed a peace between the United States and the Mother Country which has lasted for over one hundred years.

In addition to the Muster and Pay rolls, many letters, documents and state papers pertinent and interesting have been included in the publication. When the work of collecting and compiling these records was begun the State Archives contained no Muster or Pay rolls. A number of these papers were found in the War Department at Washington, but the greater number in private possession. The Commission believes that in the arduous work of collecting and publishing these records it has rendered important service to the State. Through the generosity of Mr. Septimus E. Nivin, of Landenberg, Pa., the E. I. duPont de Nemours Co. and others, who had these records in their possession, the State now owns the original papers that attest Delaware's great service in this war.

Foot notes indicate the source of the papers not in the Archives of the State. All papers marked "duPont Hall of Records" are now in the possession of the State.

EXPLANATORY.

It was found advisable to publish Volumes IV and V, Delaware Archives Military Series, in advance of Volume III. The latter is now in course of preparation, and will contain supplementary Revolutionary matter.

EXTRACT FROM GOV. DANIEL ROGER'S MESSAGE TO ASSEMBLY.

Gentlemen of the Senate and
Gentlemen of the House of Representatives.

Although it is with sincere Regret that I communicate to you the ultimate Failure of the Executive of the United States, in attempting to effect a Reconciliation with the Republic of France, yet it is with no small satisfaction that I reflect on the wise and manly and moderate measures which have been adopted by our Government to attain that object. And should the Injustice and Rashness of our Enemies hurry them to avowed and direct Hostilities, every American must rejoice to find that all the honourable means have been employed by the President of the United States, which the Occasion required, to avert the Calamities of War. In such an Event, it will be a Source of great self gratulation to know, that neither wisdom, Moderation, or Justice has been wanting in our Endeavours to obviate the consequences of the Rapaciousness and mad Ambition of the French Republic. Indeed, were we not assured of the Integrity of our Government, yet the Examples which France has hitherto given of her contempt of the Rights of other Independent Nations, would leave little Room to doubt of her Violence and insidious Conduct, in her contest with us. In no Instance, perhaps, have the Rulers of that Nation discovered less Sincerety, than in attempting to impose on the world a Belief, that She was disposed to make an amicable Adjustment of her Differences with this Country. At the Moment of rejecting the Embassy of the United States was She preparing to display her false Declarations of Moderation and Love of Peace; and though She would not deign officially to receive Proposals of Accommodation, yet did She perfidiously publish to the World her pretended anxiety to restore a good Understanding between the two Nations.

* * * * * * * *

To complete our System of self defence, and more perfectly to co-operate with the United States in resisting the Aggressions of our Enemies, it will be necessary to direct your attention to a revision of the Militia Laws of the State. They certainly are extremely defective in their Provisions; particularly in compelling the proper Officers to make the Returns which are contemplated by those Laws. There are other Cases of Neglect of Duty, in which adequate Remedies are not provided. It is essentially necessary that our Militia should be placed on the most respectable Footing, in order that we may be prepared, at all Times, to resist hostile attacks from every Foe. In cases of sudden Invasion, or on other unexpected Emergencies, where the Security of the People may require an armed Force, an efficient Militia will afford the most prompt Means of Defence.

* * * * * * * *

In compliance with the Authority given to Me by the Act of the General Assembly entitled "An Act to provide for the arming "the Quota of the Militia of this State, required by an Act of Congress of the United States" I made an effort to procure the arms required by that Act, but I found that such, as are there directed to be purchased, could not be had. This Scarcity of Arms of that Discription I do not apprehend will be permanent, and I have reason to believe that in the course of the ensuing year, they may be easily obtained. The Sum of Money allowed by the said

Act would not have been sufficient, even if the Muskets could have been procured. I was happy in making temporary arrangements, for the Supply of the Militia of this State with Arms, if any Occasion had required them; so that the State would not have been unprovided, although the Act could not literally be complied with.

GEORGE CLARK Captn.

FROM JNO. STOCKTON TO GOV. RICHARD BASSETT.

Wilmington, December 30th 1799.

Sir

Herewith I transmit the returns of the Several Brigades, making one division of Militia in the State of Delaware; tho' not compleat, as much so, as in my power; owing to my not receiving the returns of company in the Second Brigade & one Troop of Horse in the first Brigade, and some inaccuricies in other returns, which I could not get notified in time. The Company in the 2d Brigade that no return has been received from, is commanded by Capt. Brinkly & I have wrote three letters to General Clayton, requesting him to appoint a Court of inquiry, but my letters have not been answered. The other Company was commanded by Capt. Haughy of the 1st Brigade, he has lately resigned, & the officer who at present commands has made no return. I have doubts, whether there is as many Troopers equiped, as may be considered to constitute a Company under the Militia Laws.

From the trouble and expences attendent on this business, in the collecting and arranging the returns, Summoning & attending on General Court Martials; I am disposed to think some compensation should be allowed by the Legislature, this is done in other States; but if, upon consideration, the Legislature be of opinion no allowance ought to be made for such Services, I shall request you to accept of my resignation. I am Sir

with great regard

War Department
August 3d 1807.

His Excellency the Governor
of the State of Delaware.

Sir:

I am directed by the President of the United States to urge on the Governors of the respective States, the importance of encouraging, by all means they possess, such volunteer associations as are contemplated and authorised by the Act of Congress, passed the 24th day of February last, and when organized to be received as a part of the Quota of militia recently required to be held in readiness at the shortest notice.

The present situation of our country, calls loudly for the patriotic exertions of its citizens, in the prompt adoption of such measures as will most effectually enable us to meet the result of a late event which appears to menace its peace. Under such circumstances, it must be presumed that, with due encouragement, the whole number of Volunteers, comtemplated by the above mentioned Act, may be induced to tender their Services to their country: and your Excellency will readily perceive the importance of such a body of men, at the actual commencement of war, whose term of service will afford ample time for raising and organising a regular force for taking the field, in place of such of them, as may not be inclined to become a part of the regular army.

As it must be highly probable that such volunteer corps will be composed of our most active, intelligent, patriotic and spirited young citizens, they will undoubtedly, in the event of a war, stand on high ground as Candidates for officers in the regular army, whenever such an army shall be considered necessary:—and, from the well known military ardor, which pervades all parts of our country, there can be no doubt of the readiness of a sufficient number of our spirited citizens, to offer their services to their country at the present time.

I have the honor to be very
Respectfully, Your Excellys.
Ob. Servt.
H. DEARBORN.

BY THOMAS JEFFERSON,

PRESIDENT OF THE UNITED STATES OF AMERICA.

A Proclamation.

DURING the wars which, for some time, have unhappily prevailed among the powers of Europe, the United States of America, firm in their principles of peace, have endeavored by justice, by a regular discharge of all their national and social duties, and by every friendly office their situation has admitted, to maintain, with all the belligerents, their accustomed relations of friendship, hospitality, and commercial intercourse. Taking no part in the questions which animate these powers against each other, nor permitting themselves to entertain a wish but for the restoration of general peace, they have observed with good faith the neutrality they assumed, and they believe that no instance of a departure from its duties can be justly imputed to them by any nation. A free use of their harbours and waters, the means of refitting and of refreshment, of succor to their sick and suffering, have, at all times, and on equal principles, been extended to all, and this too amidst a constant recurrence of acts of insubordination to the laws, of violence to the persons, and of trespasses on the property of our citizens, committed by officers of one of the belligerent parties received among us. In truth these abuses of the laws of hospitality have, with few exceptions, become habitual to the commanders of the British armed vessels hovering on our coasts, and frequenting our harbours. They have been the subject of repeated representations to their government. Assurances have been given that proper orders should restrain them within the limit of the rights and of the respect belonging to a friendly nation: but those orders and assurances have been without effect; no instance of punishment for past wrongs has taken place. At length, a deed, transcending all we have hereto seen or suffered, brings the public sensibility to a serious crisis, and our forbearance to a necessary pause. A frigate of the United States trusting to a state of peace, and leaving her harbour on a distant service, has been surprised and attacked by a British vessel of superior force, one of a squadron then lying in our waters and covering the transaction, and has been disabled from service, with the loss of a number of men killed and wounded. This enormity was not only without provocation or justifiable cause, but was committed with the avowed purpose of taking by force, from a ship of war of the United States, a part of her crew, and that no circumstance might be wanting to mark its character, it had been previously ascertained that the seamen demanded were native citizens of the United States. Having effected her purpose, the vessel returned to anchor with her squadron within our jurisdiction. Hospitality under such circumstances ceases to be a duty: and a continuance of it, with such uncontrolled abuses, would tend only by multiplying injuries and irritations, to bring on a rupture between the two nations. This extreme resort is equally opposed to the interests of both, as it is to assurances of the most friendly dispositions on the part of the British government, in the midst of which this outrage has been committed. In this light the subject cannot but present itself to that government, and strengthen the motives to an honorable reparation of the wrong which has been done, and to that effectual control of its naval commanders, which alone can justify the government of the United States in the exercise of those hospitalities it is now constrained to discontinue.

In consideration of these circumstaances and of the right of every nation to regu-

late its own police, to provide for its peace and for the safety of its citizens, and consequently to refuse the admission of armed vessels into its harbors or waters, either in such numbers or of such descriptions, as are inconsistent with these, or with the maintenance of the authority of the laws, I have thought proper in pursuance of the authorities specially given by law to issue this my PROCLAMATION, hereby requiring all armed vessels bearing commissions under the government of Great Britain, now within the harbors or waters of the United States, immediately and without any delay to depart from the same, and interdicting the entrance of all the said harbors and waters to the said armed vessels, and to all others bearing commissions under the authority of the British government.

And if the said vessels, or any of them, shall fail to depart as aforesaid, or if they or any others, so interdicted, shall hereafter enter the harbors or waters aforesaid, I do in that case forbid all intercourse with them or any of them, their officers or crews, and do prohibit all supplies and aid from being furnished to them or any of them.

And I do declare and make known, that if any person from, or within the jurisdictional limits of the United States shall afford any aid to any such vessel, contrary to the prohibition contained in this Proclamation, either in repairing any such vessel, or in furnishing her, her officers or crew, with supplies of any kind, or in any manner whatsoever, or if any pilot shall assist in navigating any of the said armed vessels, unless it be for the purpose of carrying them in the first instance, beyond the limits and jurisdiction of the United States, or unless it be in the case of a vessel forced by distress, or charged with public dispatches as hereinafter provided for, such person or persons shall, on conviction suffer all the pains and penalties by the laws provided for such offenses.

And I do hereby enjoin and require all persons bearing office civil or military within or under the authority of the United States, and all others, citizens or inhabitants thereof, or being within the same, with vigilance and promptitude to exert their respective authorities, and to be aiding and assisting to the carrying this Proclamation and every part thereof, into full effect.

Provided nevertheless that if any such vessel shall be forced into the harbors or waters of the United States by distress, by the dangers of the sea, or by the pursuit of an enemy, or shall enter them charged with dispatches or business from their government, or shall be a public packet for the conveyance of letters and dispatches, the commanding officer immediately reporting his vessel to the collector of the district, stating the object or causes of entering the said harbors or waters, and conforming himself to the regulations in that case prescribed under the authority of the laws, shall be allowed the benefit of such regulations respecting repairs, supplies, stay, intercourse and departure as shall be permitted under the same authority.

In testimony whereof, I have caused the seal of the United States to be affixed to these presents and signed the same.

Given at the city of Washington the second day of July in the year of our Lord one thousand eight hundred and seven, and of the sovereignty and independence of the United States the thirty-first.

[SEAL.]

TH: JEFFERSON.

By the President,
JAMES MADISON, *Secretary of State.*

GOV. MITCHELL'S MESSAGE AUG. 4th 1807

To the Gentlemen of the Senate, and the
Gentlemen of the House of Representatives.

At the Session of the General Assembly, in January last, I thought it my Duty to recommend to the Legislature a Consideration of the Militia Laws of this State. The critical Situation of our Country was such as to induce the strongest Belief that a long Time would not elapse before we should be compelled to a Contest in Defence of the Rights of a free and Independent Nation. Since that period, my apprehensions have been nearly realized. The President by his Proclamation of the second Day of July has officially informed the People of the United States, that one of our Frigates, trusting to a State of Peace, and leaving her Harbour on a distant Service, has been surprised and attacked by a British Vessel of Superior Force, one of a Squadron then lying in our Waters and covering the transaction, and has been disabled from Service, with the loss of a Number of Men killed and wounded: And that this Enormity was not only without Provocation or justifiable cause, but was committed with the avowed Purpose of taking by Force, from a Ship of War of the United States, a part of her crew; and that no Circumstance might be wanting to mark its Character, it had been previously ascertained that the Seamen demanded were Native Citizens of the United States.

By a letter from Henry Dearbourn Esquire the Secretary of the War Department, of the 6th of July 1807, the President has called upon the Executive of this State to take effectual Measures to organize, arm, and equip, according to Law, and hold in Readiness to March at a Moment's warning our proportion of one hundred thousand Militia, Officers included, by Virtue of an Act of Congress passed on the 18th Day of April 1806, entitaled "An Act authorizing a Detachment from the Militia of the United States", and has required of me to have eight hundred and fourteen of the Militia of Delaware (being her Quota) detached and duly organized in Companies, Battalions, Regiments, Brigades and Divisions within the Shortest Period that circumstances will permit, and as nearly as practicable in the following Proportions of Artillery, Cavalry and Infantry, Viz., one twentieth part Artillery; one tenth Cavalry; and the residue Infantry.

Thus Gentlemen I have detailed to you the Official Information I have received of the late unprovoked and unjustifiable Attack made upon one of our Frigates, and of the consequent Requisition of the President. To enable this State fully to comply with this Requisition, and effectually to Co-operate with the Government of the United States in asserting our Honor and Independance, and in resisting such lawless Acts of Violence, I thought proper to convene the General Assembly at this Time.

The deranged State of our Militia will prevent Me from taking such prompt and efficacious measures for organizing our Proportion of the Number demanded, as the exigency of the occasion, my own Inclination, and a conviction of Duty require. It is necessary that a new, complete and adequate Military System should be adopted. Under the present existing Laws, it is not practicable to detach our Quota as required; and I trust Gentlemen that you will, during the present Session, enable the Executive to Meet the Demand of the President, and give an opportunity to our Citizens to show their zeal in repelling the wrongs done to our Country.

Besides being disorganized the Militia is without Arms. The fifth Section of the Act entitled "An Act to establish an uniform Militia throughout this State", passed the 1st Day of February 1799 has never been complied with, and it is not probable that the individual Citizens will be able to Arm and accoutre themselves sufficiently expeditious to meet the call of the President. I therefore beg Leave

to Submit to you the Propriety of procuring such Quantity of Arms as will enable me fully to equip the required Detachment from this State.

Having no Knowledge of any other Matter which requires the Interposition of the Legislature at this Session, I shall not direct your Attention to any other Subject than that alone upon which you have been Assembled.

The Secretary will lay before you the Proclamation of the President of the United States dated the 2d of July last, Also a Copy of the Letter of the Secretary of War of the 6th July 1807.

NATHL. MITCHELL
August 4th 1807.

War Department
July 6th 1807.

His Excellency
The Governor of the
State of Delaware.

Sir

The President of the United States has directed me to call upon the Executives of the several States, to take effectual measures to organise, arm and equip according to Law and hold in rediness to march at a moments warning their respective proportions of one hundred thousand Militia, Officers included, by Virtue of an Act of Congress passed on the 18th day of April 1806 entitled "an Act authorizing a Detachment from the Militia of the United States." This therefore is to require of your Excellency to take effectual measures for having eight hundred and fourteen of the Militia of Delaware (being her quota) detached and duly organised in Companies, Battalions, Regiments, Brigades and divisions, within the shortest period that circumstances will permit, and as nearly as practible, in the following proportions of Artillery, Cavalry and Infantry; Viz., one twentieth part Artillery, one tenth Cavalry and the residue Infantry. There will however be no objection on the part of the President of the United States to the admission of a proportion of Riflemen, duly organised in district Corps, and not exceeding one tenth part of the whole quota of the States respectively.

Each Corps should be properly armed and equipped for actual service.

Any Companies of Volunteers, who previous to orders for taking the field may tender their services conformably to the Second Section of the aforesaid Act or to an Act of Congress (a copy of which is enclosed) passed on the 24th day of February 1807, intitled "An Act authorizing the President of the United States to accept the Services of a Number of Volunteer Companies not exceeding thirty thousand Men", will be considered a part of the aforesaid Quota of eight hundred and fourteen according to their numbers, and from the well known Patriotism of our fellow citizins, it must be presumed, that under the existing Circumstances of our Country a large proportion of the quotas of the several States, will be composed of such Volunteer Corps, especially as they will undoubtedly meet with every encouragement from your Excellency, and from all other patriotic influential characters.—When the detachment and organisation shall have been effected, the respective Corps, will be excercised under the Officers Set over them; but will not remain embodied or be considered in actual service, until by subsequent orders they shall be directed to take the field. Your Excellency will please to direct that Correct Muster Rolls and Inspection returns be made of the several Corps; and that Copies thereof be transmitted to this Department, as early as possible.

I have the honor to be
very Respectfully your
Excellency's Obt. Servant

MEMORIAL OF THE OFFICERS OF THE 1st BRIGADE TO THE ASSEMBLY.

To the Honourable the Senate and House of Representatives, of the State of Delaware in General Assembly met,

The Memorial of the Officers of the first Brigade of the Militia of the State aforesaid humbly represents,

That, from unavoidable circumstances the provisions of the seventh Section of the Militia law could not be complied with,

That we humbly conceive, that the Muster days should be More frequent, and the fines of absentees increased; that a moderate compensation should be given for the services of the different corps, to be paid out of the Treasury of the several Counties; and that it would be conducive to the general good, that the Brigadier and the Field Officers of the several Brigades, should be vested with the power of altering the districts throughout the State, so as to equalize the Companies More perfectly. And also, that they be authorized to borrow money to pay the musicians of the several companies for the first year.

We beg leave further to represent, that, the Adjutant General should make a duplicate of all returns to the Major General.

JOHN STOCKTON TO GOV. TRUITT

refusing to consent to Mr. Bayard's appointment as Brig. Genrl.

Wilmington Delaware Jany. 14th, 1808.

Sir—When I wrote you and inclosed the commissions of the officers of the 6th district in the first Regiment of Militia, the idea struck me that you were to be qualified as the Chief Magistrate of the State, the first tuesday in the present month.

It has been intimated to us that their is a wish, I would consent Mr. Bayard being appointed the Brigadier General of the New Castle County, to this I will not consent, as being commandant of the first Regiment.

Was it a Legislative performance I would yield, but in a Military capacity I will not, to a man who has never held any military appointment. If there is any wish to get me out of the way, to make room for others, make it known to me and I shall return my commission to the department from whence it was received.

I am Sir Very Respectively your obt. St.

PETITION OF THE NEW CASTLE ARTILLERY CO. TO LEGISLATURE FOR TWO BRASS SIX POUNDERS

To the Senate and house of Representatives of the State of Delaware

The Memorial of the subscribers, officers of the New Castle Company of Artillery.....

Represents,

That your memorialists view with considerable anxiety the present critical situation of the United States in relation to the rival powers of Europe and are of opinion that a complete state of defense presents the best barrier to foreign aggression and the surest security for those rights so dearly purchased by the blood and treasure of our Forefathers, which we are bound to transmit to Posterity unsullied and uninfringed.

The late insidious and infamous attack of the British on Copenhagen justify the belief that Truth, Justice, Honor and good faith must in the conduct and councils of that Nation yield submissively to the strong impulse of interest. With a kingdom whose policy and conduct is notoriously of this cast, and who in defiance of the Laws of Nations and of Hospitality have in our own harbours murdered our unsuspecting citizens, and wet our shores with the blood of Americans, which yet remains unavenged and unatoned for. Prudence and Patriotic ardor must say that a state of armed defence, if it does not protect us from insult and aggression, will at least enable us to repel them with the spirit of Freemen.

The Artillery of Company at New Castle commanded by your memorialists is now in complete uniform, but are unprovided with cannon and without which in case of war their services would avail but little in defense of the Town of New Castle or the Country around. The Town in the opinion of your memorialists should be furnished for the purpose of defence with at least some field pieces, if not a Battery, otherwise the Inhabitants might be plundered, the Bank robbed of its specie and the Town set in flames by a few men under cover of the guns of a small privateer; a landing from which might effectually be prevented by a few cannon.—

Your memorialists therefore pray on behalf of the New Castle Artillery Company, that the Legislature on a consideration of the premises will be pleased to make provision for the purchase of two brass six pounders—with the apparatus appurtenant thereto and direct the same to be delivered to your memorialists for the use of the Company commanded by them & to be considered as a part of of the Arms of the State necessary for arming the quota of troops called for by the President of the United States.

Your memorialists submit this their memorial with the firm conviction that the Wisdom and Patriotism of the Legislature will direct the adoption of such measures as the low'ring aspect of our Political horizon emphatically demands.

"To the Senate and House of Representatives of the State of Delaware.

I have very few subjects, Gentlemen, to recommend to your notice in addition to those mentioned in my message of the 15th of November, and which is still under your consideration.

Shortly after I received the orders of the Secretary at War for detaching and holding in readiness to march, the States' quota of the detachment of one hundred thousand men from the Militia of the Several States and Territories, I directed the Adjutant General to have the draft completed as expeditiously as possible; and that Officer has taken the necessary measures to have this order complied with.

The money appropriated by the Act of the 13th of August 1807 still remains in the treasury; but notwithstanding the arms have not been actually purchased, I have made inquiry where they might be had and upon what terms; and I have been informed that the State can be supplied with the number requisite to arm her quota, or indeed all her militia, at any moment."

GEO. BYDS. MASSEY Capt.

ABSTRACT FROM GOVERNOR HASLETT'S MESSAGE JANY. 7th 1812.

Fellow citizens of the Senate,
and of the House of Representatives,

Nothing could contribute more to my satisfaction at this time and on this occasion, than to be justified from the posture of our foreign relations, in offering to you my congratulations on the adjustment of all our differences with the belligerents of Europe. But unhappily for our beloved country, it would seem as if a participation in the devastations of war, must be it's portion. And however reluctant we may be to engage in hostility with any power, it will be a subject of consolation to the patriot and the soldier, amidst the din of arms, to reflect, that such a state of things was avoided, as long as it could be, consistly with the honour and the rights of the nation. Our rulers have left no honourable effort unemployed to arrive at a friendly and sincere adjustment of every existing difference with both Great Britain and France. But in proportion to the anxiety, which the government has evinced, to accomplish this desirable end, the former of these powers has receded from the ground of compromize and increased the difficulties which pre-existed—negociation with her, has become a formal nullity and a magnanimous offer of amity, the object of her derision and contempt. France, indeed, has revoked her decrees which so injuriously affected our commerce; but their revocation is unaccompanied with an offer of retribution for the unexampled pillage of our property committed under them. She also vexes our commerce by municipal restrictions, unfavourable to a fair and an amicable intercourse.

Under this aspect of our public affairs, it behoves us to be prepared for such a crisis, as may ultimately occur. An union of sentiment among ourselves—a determined support of the constituted authorities of the general government, in such measures as they may adopt for the general security—a patriotic resignation to the privations which a state of hostility may produce—and minds firmly and valourously bent on facing the conflict whenever it appears, will be necessary for us all, if we mean to co-operate in the defence of our rights. In obtaining these rights, the state of Delaware was a fearless and effectual co-adjutor; and will undoubtedly be counted among the last in surrendering them. In proportion as she prizes the blessings of a virtuous and republican self-government, ought she to be firm and resolute in her endeavors to preserve it. Small and unimportant as she may be, as a member of the union, I trust that, in the terrible hour of war, her citizens would be as effectual guardians of the public liberty as those of any part of our country. In conflicts more awful than may again occur, her Blues received upon the "embattled plain," the grateful plaudits of an expiring hero;—History has recorded their deeds in her fairest pages; and Liberty has inscribed their names, upon tablets as durable as time.

There are several subjects, to which as the representatives of the people, I would claim your attention.

As the correspondence accompanying the Message of the President of the 5th of November last, leaves us without hopes of a returning sense of justice on the part of one of the beligerents, I submit to you the immediate propriety of an amendment of our militia laws. * * * * We ought, as an efficient member of the Union, as a means of our own safety, and as a body politic, which is always resolved to defend its rights against every violation, to maintain a well disciplined and a respectable militia. On this subject too much assiduity cannot be employed, as the hour is not known, when we may be required to furnish that quota of men for the common defence, which, as a component part of the Union, we are bound to contribute. * * * *

GOVERNER HASLET'S MESSAGE MAY 20th 1812.

Fellow Citizens of the Senate
and of the House of Representatives

The Secretary for the Department of War by official communication under date of the 15th of April 1812 informed me, that he was instructed by the President of the United States to call upon the Executives of the several States to take effectual measures to organize, arm and equip according to law, and hold in readiness to march at a moments warning their respective proportions of one hundred thousand Militia, Officers included, by virtue of an Act of Congress passed the 10th of that month entitled "An Act to Authorize a Detachment from the Militia of the United States." This communication was therefore to require of me to take effectual measures for having one thousand of the Militia of Delaware (being her quota) detached and duly organized in Companies, Battalions, Regiments, Brigades and Divisions within the shortest period, that circumstances would permit and as near'y as possible in the following proportions of Artillery, Cavalry and Infantry: viz.,—one twentieth part of Artillery, one twentieth part of Cavalry and the Residue Infantry: the communication requiring that each Corps should be properly armed and equipped for actual service.

Respect for the constitutional authorities of the United States, the high sense, which I entertain, of the honour and patriotism of this State, the prospect of approaching war rendered apparently inevitable by the long continued and increasing injustice of a foreign nation, our exposed situation in case of such emergency, and the total want of preparation in this State to meet this emergency imperiously urge me promptly and efficiently to comply with the requisition thus communicated. Without your aid compliance is impossible.

The Legislature of this State by an Act passed February 2, 1811 entitled "A Supplement to an Act entitled 'An Act to establish an uniform Militia throughout this State", having enacted, that no officer, non commissioned officer or private should be subject to any fine or forfeiture by reason of non attendance or being absent on company or regimental days of Meeting required by any militia laws of this State, these laws remain mere forms. Few of our fellow citizens will accept or hold commissions giving to them the semblance of rights of command, which they know, that they cannot enforce. Few or none of our fellow citizens will enrol themselves in companies, arm themselves or perform military duty knowing that their neglect subjects them to no penalty and also knowing, that the patriotic exertions of individuals without the countenance and aid of the legislature cannot organize the militia. The militia is in consequence disembodied: it is without organization and without arms. In this condition of the militia I cannot take effectual measures for having one thousand of the militia of the State detached and duly organized according to the requisition of the President of the United States.

Desirous that the expenses of specially convening you might be avoided, I at your last session submitted to you the propriety of an immediate amendment of our Militia laws; and alluding to the foreign relations of the United States I suggested, that if your attention were not directed to the revisal of these laws during that session, I might be compelled to call you together for this purpose before the close of the year: and upon receiving the above mentioned communication I imparted the subject of it to the adjutant General. This officer alleged, that orders for effecting what this communication requires of me, under the existing Militia laws of the State could not be executed.

I therefore deemed it my indispensable duty to convene you to submit this subject to your consideration. In this State it is not a question whether the authority of the United States is to be respected. The State of Delaware will never hesitate to cooperate with her sister States in defending the common rights of the nation. In all exertions to support the sovereignity and independence of our country she will ever claim to have a conspicuous part. The dignity of the State would not suffer me to issue orders, which all must know to be nugatory, trifling with the occasion. You will enable me to comply with the requisition, which has been made of me, in such manner as shall comport with the honour and patriotism of the State.

By an Act of Assembly passed January 31, 1809 entitled "An Act to authorize the Governor to purchase arms for the use of the State," the Governor was authorized and required to purchase for the use of the State such arms and equipments—particularly mentioned in the Act—as might be necessary to arm and furnish the quota of Militia required from this State, or any part thereof, whenever the said quota or any part thereof might be called into actual service and an appropriation was made for this purpose. When this law was passed, a quota of the militia of this State had been detached and was held in readiness to march according to a previous requisition of the President of the United States. The law authorized the purchase to arm and furnish the quota required; it authorized this purchase only when this quota or any part thereof should be called into actual service. The quota of militia, which at the time of passing this law were required from this State, were afterward discharged from service. I consider, that the arms and equipments the purchase of which this law authorized, were for this quota of militia and that upon their discharge from service the law expired. I should not consider myself authorized without your direction, in any event to make the purchase or use the appropriation. I would also submit to your consideration, whether such authority, as was given by this law could be adapted to the intended purpose. The quota militia will not be considered as in actual service, until they shall be directed to take the Field. This probably will not be until some emergency shall require their immediate operation. Would it then be practicable to purchase arms to enable them to meet such emergency? Would not an occasion calling the militia into actual service throw difficulties and embarrassments in the way of purchasing arms for them either with despatch or upon advantageous terms? According to the requisition of the President of the United States the militia required should be armed and equipped, ready to march at a moments warning. It is needless to remark that if, when the militia shall be ordered to march, it will be necessary first to purchase their arms and equipments, the requisition will not have been complied with. Beside, would it be prudent to order the Militia into actual service with arms, of which they had not learned the use?

As your attention at this session will probably be confined principally to the subject, for the consideration of which you have been convened, I would submit to you the propriety of passing a law permanently and effectually to organize the militia of this State. I need not remind you of the established maxim, that a well organized militia is the proper defence of a republican government.

The history of our own country teaches us, how our freedom and independence were acquired; the history of the free States, which have existed before us, will teach us, how these, to be preserved, must be maintained and defended. Were our prospect of peace unlimited, would it be the part of wisdom to suffer the use of arms to be entirely neglected and forgotten. Our exposed situation in case of war, need not be pointed out to you. This certainly requires that the militia of the State should be efficiently organized.

While the militia law shall remain imperfect, it will be vain to expect the disciplining of the militia. Our fellow citizens seeing such law to be useless will regard the duties, which it may require, as odious burdens. But if the law be rendered efficient, so as to well organize the militia, the performance of military duty will through custom soon become a pleasing recreation.

I doubt not, that you will give to these subjects the consideration, which they merit, and that the result of your deliberations will be such, as the honour and welfare of the State demand.

I lay before you copies of the communication received from the Secretary for the Department of War and of the act of Congress mentioned in this communication; I also lay before you copies of an act of Congress approved February 6, 1812, entitled "An Act authorising the President of the United States to accept and organize certain volunteer Military Corps"—which Acts have been forwarded to me from the war Department.

JOSEPH HASLET

SECY. OF WAR. WILLIAM EUSTIS TO GOV. HASLET.

War Department
April 15, 1812.

His Excellency,
The Governor of the State of Delaware.

Sir,

I am instructed by the President of the United States to call upon the Executives of the several States to take effectual measures to organize, arm and equip according to law and hold in readiness to march at a moments warning their respective proportions of one hundred thousand militia, officers included, by virtue of an Act of Congress passed the 10 instant, entitled "An Act to authorize a Detachment from the Militia of the United States."

This is therefore to require of your Excellency to take effectual measures for having one thousand of the Militia of Delaware (being her quota) detached and duly organized in companies, Battalions, Regiments, Brigades and Divisions within the shortest period that circumstances will permit,—and as nearly as possible in the following proportions of Artillery, Cavalry and Infantry: Viz., one twentieth part of Artillery: one Twentieth part of Cavalry: and the residue Infantry. There will however be no objection on the part of the President of the United States to the admission of a proportion of Rifle men duly organized in Distinct corps and not exceeding one tenth part of the whole quota of the States respectively.

Each Corps should be properly armed and equipped for actual service.

When the Detachment and organization shall have been effected, the respective corps will be exercised under the officers set over them, but will not remain embodied or be considered as in actual service, until by subsequent orders they shall be directed to take the field.

Your Excellency will please to direct that correct muster Rolls and Inspection Returns be made of the several corps; and that copies thereof be transmitted to this Department as early as possible.—

I have the honor to be
Sir,
&c
WILLIAM EUSTIS.

AN ACT AUTHORISING THE PRESIDENT OF THE UNITED STATES TO ACCEPT AND ORGANIZE CERTAIN VOLUNTEER MILITARY CORPS

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, that the President of the United States be, and he is hereby authorized, to except of any company or companies of volunteers, either of artillery, cavalry or infantry, who may associate and offer themselves for the service, not exceeding fifty thousand men, who shall be clothed, and in case of cavalry, furnished with horses at their own expence, and armed and equipped at the expence of the United States, after they shall be called into service, and whose commissioned officers shall be appointed in the manner prescribed by law in the several states and territories to which such companies shall respectively belong: Provided, that where any company, battalion, regiment, brigade or division, of militia, already organized shall tender their voluntary service to the United States, such company, battalion, regiment, brigade or division, shall continue to be commanded by the officers holding commissions in the same, at the time of such tender; and any vacancy thereafter occurring, shall be filled in the mode pointed out by law in the state or territories wherein the said company, battalion, regiment, brigade or division shall have been originally raised.

Sec. 2. And be it further enacted, That any company, battalion, regiment, brigade or division, thus offering itself for the service shall be liable to be called upon to do military duty, at any time the President of the United States shall judge proper, within two years after he shall have accepted the same, and shall be bound to continue in service for the term of twelve month after they shall have arrived at the place of rendezvous, unless sooner discharged; and when so called into service, and whilst remaining therein, shall be under the same rules and regulations, and be entitled to the same pay rations, forage, and emoluments of every kind, bounty and clothing excepted, with the regular troops of the United States: Provided, that, in any company, who may thus offer themselves, shall be entitled, when called into service to receive in money a sum equal to the cost of the clothing of a non-commissioned officer or private (as the case may be) in the regular troops of the United States.—

Sec. 3. And be it further enacted, that the President of the United States be, and he hereby is authorised, to organize the companies so tendering their services as aforesaid, into battallions, squadrons, regiments, brigades and divisions, as soon as the number of volunteers shall render such organization in his judgment expedient; but, until called into actual service, such companies are not to be considered as exempt from the performance of militia duty, as is required by law, in like manner as before the passage of this act.—

Sec. 4. And be it further enacted, That in case any volunteer above mentioned, while in actual service shall sustain any damage, by injury done to his horse, or such other equipment as shall have been furnished at his own expence, or by loss of the same, without any fault or negligence on his part, a reasonable sum, to be ascertained in such manner as the President of the United States may direct shall be allowed, and paid to such volunteer, for each and every such loss or damage.—

Sec. 5. And be it further enacted, That if any officer non-commissioned officer, musician or private, shall be disabled by wounds or otherwise, while in the line of his duty in public service, he shall be placed on the list of invalid pensioners of the United States, at such rate of pension and under such regulations as are or may be directed by law: Provided always, That the compensation to be allowed for such wounds or disabilities officers, shall not exceed, for the highest rate of disability

half the monthly pay of such officers, at the time of his being wounded or disabled, and that no officer shall receive more than the half pay of a Lieutenant Colonel: And that the rate of pension to non-commissioned officers, musicians and privates shall not exceed five dollars per month: And Provided also, That all inferior disabilities shall entitle the person so disabled to receive an allowance proportionate to the highest disability.—

Sec. 6. And be it further enacted, That the heirs and representatives of any non-commissioned officer or soldier who may be killed in action, or die in the actual service of the United States, shall be entitled to receive one hundred and sixty acres of land; to be designated, surveyed and laid off, at the public expence, in such manner and upon such terms and conditions as may be provided by law.—

Sec. 7. And be it further enacted, That upon the discharge of any non-commissioned officer or soldier, who shall have been accepted under the provisions of this act, and shall have been in actual service for a period not less than one month, and shall have obtained from the commanding officer of his company, battallion or regiment a certificate that he had faithfully performed his duty while in service, such non-commissioned officer or soldier, if attached to the artillery or infantry, shall be presented with a musket bayonet, and other personal equipments, or, if attached to the cavelry, with the sabre and pistols furnished him by the United States, as a public testimonial of the promtitude and zeal with which he shall have volunteered in support of the rights and honor of the country.—

Sec 8. And be it further enacted, That the sum of one million of dollars be appropriated to defray the expenses which may be incurred under the provisions of this act, to be paid out of any money in the Treasury not otherwise appropriated.—

FORMATION OF "THE WILMINGTON TROOP OF CAVALRY".

A number of citizens of Wilmington and its vicinity, desirous of evincing their attachment to their country, and of assisting in its defence, having assembled for the purpose of forming a troop of horse, did on thursday evening the 6th of August enter into articles of association under the denomination of "The Wilmington troop of cavalry,"—and on the same evening, twenty members being present, the troop proceeded to the election of the necessary officers, when the following persons, as appears from the certificate of the tellers hereto annexed, were elected to the offices respectively attached to their names.

Wilmington August 6, 1812.

CAPT. JOHN WARNER TO GOV. JOSEPH HASLET.

Wilmington, August 17, 1812.

Sir—

I enclose you the proceedings of a number of citizens of this Borough & its vicinity, who have recently associated themselves for the purposes therein specified.

In addition to what is there stated, I would observe that the association is now encreased to the number of about thirty members, and that I entertain well grounded expectations that the number comprising the troop will very shortly amount to forty men.

Under these circumstances there is no obstacle to a complete organization & equipment of the troop but the want of commissions for the officers, to obtain which I am authorized to make this application. If, Sir, you should find it consistent with the duties imposed upon you by the late militia law, your compliance with this application will confer a favor upon the troop.

I am Sir
very respectly.
JOHN WARNER
Captn.

JOSEPH HASLET Esqr.
Governor of the State of Delaware.

P. S. You will please to give an early answer to this application.

CAPT. GEO. MASSEY TO COL. DAVID NIVIN—VOLUNTEERS.

Hamden Aug. 1812.

Sir..... I have the honour to inform you that at a meeting of the 4th company of the second regiment of Delaware Militia held on thursday the 30th July, for the purpose of classing the same in pursuance of the provisions of the 11th Section of the late supplement to the militia laws,—I took that opportunity of reading to the said Company the Brigade orders dated the 20th July wherein Brigadier General Stockton makes known to the Brigade Major, that Sixty four men, officers included should volunteer their services from the Second regiment and having expressed my anxious desire that so honourable a call should at once be complyed with by our Company alone—Sixty three of the said company, officers included, immediately came forward and subscribed a written instrument which authorises their names to be reported to the constituted authorities as having made a voluntary tender of their services to compose a part of this States quoto of the Militia of the United States, and requesting that in that capacity they may be accepted.

The 12 Section of the above mention supplement to the militia laws having provided, that the colonels of the respective regiments are authorised to accept of the voluntary services of the quotos thereof,—I enclose to you a list of the said volunteers.

It gives me great pleasure Sir to make known to you this unoquivocal demonstration of the patriotism of the young men of this district of White Clay Creek Hundred, and which shows that they entertain not only a due appreciation of their country's rights, but that they have the spirit to defend them.

I have the Honour to be,
with great respect,
Sir, your Obt. Servt.

ABSTRACT OF GOVERNOR HASLET'S MESSAGE—NOV. 12th 1812.

"Fellow Citizens of the Senate
and of the House of Representatives,

In making this communication I have in view, that you have met for a special purpose expecting your present session to be of short duration.

The Secretary having pursuant to a resolution of the Senate and House of Representatives at their session in May furnished me with a copy of an Act of the General Assembly entitled "An Act to enable the governor to make a detachment of the Militia and for other purposes" passed at that session and I having been officially informed of the Act of Congress "Declaring war between the United Kingdom of Great Britain and Ireland and the dependencies thereof and the United States of America and their territories" approved the eighteenth of June, I made contracts (to be immediately fulfilled) for purchasing nine hundred muskets with bayonets and the requisite equipment for the purpose of arming and equipping this States quota of Militia ordered to be detached pursuant to the requisition of the President of the United States of the fifteenth of April. Six hundred muskets with bayonets and all the equipments contracted for have been delivered under these contracts. The remaining three hundred muskets with bayonets, are, I understand, finished and will soon be delivered. I submit to you the propriety of a Law directing the mode in which these arms and equipments shall be distributed and providing for their safe keeping and preservation."

FROM CAPTAIN JACOB JONES TO HON. PAUL HAMILTON.

U. S. S. Wasp, Aug. 25—1812.

Sir.

We have this afternoon taken an english brig, in ballast, from New Castle bound to St. John's. She was taken a few days ago by a privateer from Salem & last night retaken by the british Frigates Holus & Shannon, that are crusing off Georges bank.

I am respectfully
Yrs. JA. JONES.

To Honorable PAUL HAMILTON
Secretary of the Navy.

FROM CAPTAIN JACOB JONES TO HON. PAUL HAMILTON

Philada. 24th Sept. 1812.

Sir.

I'm informed by a pilot who arrived here to day, having left cape henlopen yesterday that a british Brig, believed to be the late Government Brig Nautilus, has been off there for several days, runing in every day so near that the men on board of can be seen. The Wasp is now ready for sea, & should you think proper to allow me to run down to the Capes for three or four days, it is probable that we may meet, either her or some one of their sloops of war off there, & return to N. Castle or Chester in the course of a week to receive any further order that you may have for us.

Respectfully
Yrs. JA. JONES

ansd. 26th Sept. 1812
The Honorable PAUL HAMILTON
Secretary of the Navy.

REPORT OF CAPTURE OF THE FROLIC BY THE WASP.

Capt. Jones to the Secretary of the Navy.

NEW YORK, Nov. 24, 1812.

SIR—I here avail myself of the first opportunity of informing you of the occurrences of our cruise, which terminated in the capture of the Wasp on the 18th of October, by the Poictiers of 74 guns, while a wreck from damages received in an engagement with the British sloop of war Frolic, of 22 guns; sixteen of them thirty-two pound carronades, and four twelve pounders on the main deck and two twelve pounders, carronades, on the top-gallant-forecastle, making her superior in force to us by 4 twelve pounders. The Frolic had struck to us, and was taken possession of about two hours before our surrendering to the Poictiers.

We had left the Delaware on the 13th. The 16th had a heavy gale, in which we lost our jib-boom and two men. Half past eleven, on the night of the 17th, in the latitude of 37 deg. N. and long. 65 deg. W. we saw several sail, two of them appearing very large; we stood from them for some time, then shortened sail and steered the remainder of the night the course we had perceived them on. At day-light on Sunday the 18th we saw them ahead—gave chase and soon discovered them to be a convoy of six sail, under the protection of a sloop of war; four of them large ships, mounting from 16 to 18 guns. At thirty-two minutes past 11, A. M. we engaged the sloop of war, having first received her fire at the distance of fifty or sixty yards, which space we gradually lessened until we laid her on board, after a well supported fire of forty-three minutes; and although so near while loading the last broadside that our rammers were shoved against the side of the enemy, our men exhibited the same alacrity which they had done during the whole of the action. They immediately surrendered upon our gaining their forcastle, so that no loss was sustained on either side after boarding.

Our main-top-mast was shot away between 4 and 5 minutes from the commencement of the firing, and falling together with the main-topsail yard across the larboard fore and fore-top-sail braces, rendered our head-yards unmanageable the remainder of the action. At eight minutes the gaft and and mizen-top-gallant mast came down, and at 20 minutes from the beginning of the action every brace and most of the rigging was shot away. A few minutes after separating from the Frolic both her masts fell upon deck, the mainmast going close by the deck, and the foremast twelve or fifteen feet above it.

The courage and exertions of the officers and crew fully answered my expectations and wishes. Lieut. Biddle's active conduct contributed much to our success, by the exact attention paid to every department during the engagement, and the animating example he afforded the crew by his intrepidity. Lieuts. Rodgers, Booth, and Mr. Rapp, shewed by the incessant fire from their divisions that they were not to be surpassed in resolution or skill. Mr. Knight and every other officer acted with a courage and promptitude highly honorable, and I trust have given assurance that they may be relied on whenever their services may be required.

I could not ascertain the exact loss of the enemy, as many of the dead lay buried under the masts and spars that had fallen upon deck, which two hours' exertion had not sufficiently removed. Mr. Biddle, who had charge of the Frolic, states that from what he saw and from information from the officers, the number killed must have been about thirty, and that of the wounded about forty or fifty—of the killed is her first Lieut. and sailing master; of the wounded Capt. Whinyates, and her second Lieut.

We had five killed and five wounded as per list; the wounded are recovering. Lieut. Claxton, who was confined by sickness, left his bed a little previous to the engagement, and though too weak to be at his division remained upon deck and shewed by his composed manner of noting its incidents, that we had lost by his illness the services of a brave officer.

I am respectfully, yours,

JACOB JONES.

The Hon. PAUL HAMILTON Secretary of Navy.

NILES REGISTER JANY. 23rd. 1813

"Devoted, as is this journal, to all that can add honor or distinction to the national character, it has no fairer pages than those which record instances of bravery like the following, the account of which we have rendered scrupulously minute and authentic.

The United States sloop of war the Wasp, commanded by captain Jacob Jones, was cruising in long. 65, W. and lat. 37, N. the track of vessels passing from Bermuda to Halifax, when on Saturday the 17th. of October, about 11 o'clock, in a clear moonlight evening, she found herself near five strange sail, steering eastward. As some of them seemed to be ships of war it was thought better to get farther from them. The Wasp, therefore, hauled her wind, and having reached a few miles to windward, so as to escape or fight as the occasion might require, followed the strange sail through the night. At day-break on Sunday morning, capt. Jones found that they were six large merchant ships, under convoy of a sloop of war, which prooved to be the Frolic, capt. Whinyates, from Honduras to England, with a convoy, strongly armed and manned, having all forty or fifty men, and two of them mounting sixteen guns each. He determined, however, to attack them, and as there was a heavy swell of the sea, and the weather boisterous, got down his top-gallant yards, close reefed the top-sails, and prepared for action.

About 11 o'clock the Frolic shewed Spanish colors; and the Wasp immediately displayed the American ensign and pendant. At 32 minutes past 11, the Wasp came down to windward, on her larboard side, within about sixty yards and hailed. The enemy hauled down the Spanish colors, hoisted the British ensign and opened a fire of cannon and musketry—this the Wasp instantly returned; and, coming near to the enemy, the action became close and without intermission. In four or five minutes the main-top-mast of the Wasp was shot away, and falling down with the main-top-sail yard across the larboard fore and fore-top-sail braces, rendered her head yards unmanageable during the rest of the action. In two or three minutes more her gaff and mizen-top-gallant-mast were shot away. Still she continued a close and constant fire. The sea was so rough that the muzzles of the Wasp's guns were frequently in the water. The Americans, therefore, fired as the ship's side was going down, so that their shot went either on the enemy's deck or below it, while the English fired as the vessel rose, and thus her balls chiefly touched the rigging, or were thrown away. The Wasp now shot ahead of the Frolic, raking her, and then resumed her position on her larboard bow. Her Fire was now obviously attended with such success and that of the Frolic so slackened, that capt. Jones did not wish to board her, less the roughness of the sea might endanger both vessels; but, in the course of a few minutes more, every brace of the Wasp was shot away, and her rigging so much torn to pieces, that he was afraid that his masts, being unsupported, would go by the board, and the Frolic be able to escape. He thought, therefore, the best chance of securing her was to board, and decide the contest at once. With this view he wore ship, and running down upon the enemy, the vessels struck each other; the Wasp's side rubbing along the Frolic's bow, so that her jib-boom came in between the main and mizen rigging of the Wasp, directly over the heads of captain Jones and the first lietenant, Mr. Biddle, who were, at the moment, standing together near the capstan. The Frolic lay so fair for raking that they decided not to board until they had given a closing broadside. Whilst they were loading for this, so near were the two vessels, that the rammers of the Wasp were pushed against the Frolic's sides, and two of her guns went through the bow ports of the Frolic, and swept the whole length of her deck. At this moment Jack Lang a seaman of the Wasp, a gallant fellow, who had been once impressed by a British man of war, jumped on a gun with his cutlass, and was springing on board the Frolic; captain Jones wishing to fire again before boarding, called him down; but his impetuosity could not be restrained, and he was already on the bow sprit of the Frolic; when, seeing the arder and enthusiem of the Wasp's crew, lieut. Biddle mounted on the hammock cloth to board.

At this signal the crew followed, but lieut. Biddle's feet got entangled in the rigging of the enemy's bowsprit, and midshipman Baker, in his ardor to get on board, laying hold of his coat, he fell back on the Wasp's deck. He sprang up, and the next swell of the sea brought the Frolic nearer, he got on the bowsprint, where Lang and another seaman were already.

He passed them on the forecastle, and was surprised at seeing not a single man alive on the Frolic's deck, except the seaman at the wheel and three officers. The deck was slippery with blood, and strewed with the bodies of the dead. As he went forward the captain of the Frolic, with two other officers, who were standing on the quarter deck, threw down their swords, and made an inclination of their bodies, denoting that they had surrendered. At this moment the colors were still flying, as probably none of the seamen of the Frolic would dare to go into the rigging for fear of the musketry of the Wasp. Lieut. Biddle, therefore, jumped into the rigging himself, and hauled down the British ensign, and possession was taken of the Frolic, in forty-three minutes after the first fire."

RESOLUTIONS BY THE SENATE & HOUSE OF REPRESENTATIVES PASSED FEBY 3rd 1813

Resolved by the Senate and House of Representatives of the State of Delaware in General Assembly met. That William H. Wells, Cornelius P. Comegys and George Read Jun. be, and they are hereby appointed a committee to convey the thanks of this General Assembly to Jacob Jones, Esq. accompanied by an expression of the high esteem in which they hold the bravery and skill displayed by himself, his officers and crew in the capture of the British sloop of war Frolic, a ship much superior in force to the Wasp, commanded by him, and that the Committee be directed to express the pride and pleasure felt by this general assembly in recognizing Captain Jones as a native citizen of the state of Delaware—

Resolved, That the said Committee request Captain Jones's acceptance of a handsome piece of plate, with appropriate emblematical engravings thereon, as a testimonial of the high esteem in which his services are held by this General Assembly.

Resolved, That a sum not exceeding dollars be appropriated by law for the purchase of the said piece of plate, to be paid on the draught of the said committee.

REPORT OF THE COMMITTEE APPOINTED BY THE GENERAL ASSEMBLY

Jany 24th 1815

The Committee appointed by a Resolution of the Hon: the Gen: Assem: of the S. of Del: to procure and present to Jacob Jones Esqr. of the U. S. Navy, a Piece of Plate commemorative of the naval victory achieved by him and expressive of the high estimation in which his services were held on that occasion—very respectfully report.

That they have performed the duties assigned to them by the said Resolutions to that extent which the nature of existing circumstances permitted.

The Plate according to the direction of the General Assembly has been completed, and the sum appropriated thereby paid over to the Artist with whose Execution of the Trust reposed in him the Committee have every reason to be satisfied. The Piece of Plate is an Urn, handsomely engraved, of superior workmanship, and tasteful design, with well chosen ornaments & appropriate inscriptions.

The Engravings represent the Battle, and victory of the Wasp, & the abasement & chagrin of the boasted mistress of the Ocean at the termination of a Contest so fatal to her views of naval superiority! The inscriptions commemorate the Gratitude of the Native State of the Victor.

In explaining the cause which has hitherto prevented the Committee from discharging entirely the duty enjoined upon them by the delivery of the Plate to Capt. Jones, it is proper to mention that Capt. Jones has not visited the State of Delaware since the Plate was Completed, nor been in the vicinity of it—

In Common with the rest of their Fellow Citizens, the Committee entertain the hope of Capt. Jones' return at no very distant period to his native State; and in case of his protracted absence will indulge the anticipation of New Laurels to be added to the Trophy which he has already won.

Fellow-Citizens of the Senate, and of the House of Representatives.

During the preceding year, this state has enjoyed unexampled prosperity. The increase of banking establishments, the prosecution of internal improvements and the extending of manufactures, have evidenced the growing wealth of our fellow-citizens and the increase of their means of acquisition. Although our nation is involved in war, we have yet felt none of its calamities; while such were the wrongs perpetrated against our country by the Kingdom with which war has been declared, as to convince us, that the evils of this war, whatever they may be, cannot equal the evils arising from the outrages which produced it.

From the treaty of peace in 1783, by which his Britannic Majesty acknowledged the United States to be free, sovereign and independent States, Great Britain has manifested extreme jealousy of their increasing commerce and flourishing condition. This jealousy has constantly shewn itself in studied embarrassment of the trade, and in wanton violations of the sovereignty of our country. By capricious commercial regulations, contrary to the usages and laws of nations, she has spoiled our citizens of their property; and by impressing from on board our merchant vessels any persons, whom the commanders of her ships of war might choose to enslave, she has trampled upon the dignity of our flag, not admitting it to give character or protection to those who sailed under it. In the wars which have harrassed Europe, it has been the object of the United States to remain neutral, and to enjoy the rights to which they as a neutral nation were entitled. It has been the object of Great Britain to deprive the United States of these rights by violations of public law. In 1805 her outrages had been carried to an alarming extent. Under pretext of a principle, which she before had insisted upon, but which she had most openly and solemnly renounced, she interdicted to neutrals a commerce with her enemy, which she permitted her own subjects to carry on, and which she licensed to neutrals upon conditions so framed as to secure to herself a monopoly of the commerce of the world. The Senate of the United States viewing this subject as demanding their consideration, on the 12th February, 1806, resolved unanimously "that the capture and condemnation, under the orders of the British Government, and adjudications of their courts of admiralty, of American vessels and their cargoes, on the pretext of their being employed in a trade with the enemies of Great-Britain, prohibited in time of peace, is an unprovoked aggression upon the property of the citizens of these United States, a violation of their neutral rights, and an encroachment upon their national independence." On the 14th of the same month, the Senate of the United States further resolved, by a majority of 23 to 7—in which majority we read the names of the honourable Senators from this state—"That the President of the United States, be requested to demand the restoration of the property of their citizens, captured and condemned on the pretext of its being employed in a trade with the enemies of Great-Britain, prohibited in time of peace, and the indemnification of such American citizens, for their losses and damages sustained by these captures and condemnations, and to enter into such arrangements with the British government, on this and all other differences subsisting between the two nations, (and particularly respecting the impressment of American seamen,) as may be consistent with the honor and interests of the United States, and manifest their ernest desire to obtain for themselves and their citizens by amicable negotiations, that justice to which they are entitled."

From these resolutions, thus decisively adopted by the most august body known to our constitution, it was to have been inferred that this country would not long endure the wrongs thus solemnly remonstrated against. Amicable negotiation was long tried, and was found fruitless. The remonstrances of our government against the aggressions of Great-Britain, were either answered by insult, or followed by outrage. To these resolutions of the Senate of the United States succeeded the blockade declared by his Britanic Majesty in May, 1806, of the long line of coast from Brest to the Elbe.

This blockade was notoriously not a measure of war; but a commercial regulation. The object of Great Britain was to debar neutrals from trading with her enemy; not to prevent supplies from entering places which she had invested with a design of taking them. To this blockade succeeded the orders in council, of January and November, 1807. These orders were avowedly in violation of the laws of nations. They produced a state of war upon our commerce, organizing a most extensive system of spoilation, and rendering the greater portion of our foreign trade tributary to the British Government. Taxes upon our exports, which our own Congress could not impose, were laid by his Brittanic Majesty and sanctioned by his Parliament. In consequence of the remonstrances of our government against this taxation, the taxes were at last repealed, and in their place was substituted a general prohibition of the trade which had been thus taxed; and our government were told, that they must consider this total deprivation of the right, which they insisted upon, as full redress of the wrongs of which they complained. In the various modifications which these orders in Council have assumed, the essential principle has always remained the same. The destruction of the commerce of this Country for the promotion of the commerce of England, has been the invariable object. They have gone hand in hand with the practice of impressment; the one enslaving the persons, the other confiscating the property of our citizens. Against these outrages upon the persons and property of the citizens of the United States, the government of our country have constantly expostulated. They have appealed to the honour, to the justice and to the interest of Great Britain. Their appeals have been vain. To their complaints against the impressment of American seamen, the British government have answered, that the practice was essential to the prosperity of their navy. In adhearing to this practice, the object of Great-Britain cannot be to secure her own subjects, for it has been proffered to her to discontinue the practice under an arrangement, that all British subjects should be excluded by law from our ships. The great number, more than six thousand of American citizens, confined on board her ships of war, evidences the extent of her injustice in this particular, and her refusal to accede to the equitable arrangement proposed to her on this subject, shews, that she is determined to enjoy the fruits of past injustice, and persevere in the commission of similar wrongs.

In excuse of the orders in Council, the British have said, that these were measures of retaliation; not of retaliation against the United States; for the United States had done to Britain no injury; they claimed only to be neutral; but of retaliation against France, who had interdicted British commerce. France had done wrong, and we were made to answer for it. Great Britain thus, according to her own profession, resembling that desperate fury, which not being able to reach the object exciting it, destroys every thing within its power. Nor can these orders be considered as measures of retaliation against France. The design is not to deprive France of the Commerce, which they concern; but to secure to Great-Britain the advantages of this commerce. The trade which they prohibit, Great-Britain herself carries on; she will permit us to prosecute it through her ports, paying her for the privilege. So that all

her reasons for her outrages resolves themselves into this, that as the prosperity of the British navy requires the impressment of our seamen, so the prosperity of the British funds requires, that we should have no commerce except through her ports and subject to her taxation. Great Britain has thus made her own interest the sole rule of her actions, violating all public law, disregarding all national rights, and trampling under her feet the sovereignty of our country.

For more than six years from the adoption of the aforementioned resolutions by the Senate of the United States, amicable negotiations with the British government were continued. An arrangement solemnly entered into with the minister of that government, in which the British nation conceded nothing of right, and by which this country gained nothing but a partial redress of its wrongs, was instantly disavowed by his Britanic Majesty. Nor until everything had been tried, till the government of our country had ascertained that the practice of impressment would not be abandoned, and had been assured by the British Cabinet and its accredited minister in the United States, that the orders in council would not be repealed, except upon the condition, that we should be permitted to trade to France and other places on the continent of Europe in British manufactures and in the produce of the British soil, a condition which with France and the other nations of Europe we had no right to insist upon, and which we could not enforce, nor until the orders in council were carried into execution by British cruizers sailing along our own shores, did the Congress of the United States declare the existence of war between the King of the United Kingdom of Great-Britain and Ireland and the dependencies thereof and the United States and their territories.

It is difficult to conceive what other course, than that adopted by the Congress of the United States, could have been pursued. Years' experience of negotiation had proved, that it was hopeless. Extravagant and extraordinary pretentions had been followed by pretentions still more extravagant and extraordinary. Because the British navy must be manned, our seamen must be impressed; because the British funds must be replenished, our commerce must be rendered tributary; because British manufactures must be encouraged, and the produce of the British soil exported, we must carry these to France and other places on the continent of Europe; because Britain must maintain her ascendant power, we must surrender our rights. It was seen that the unweildly greatness of England crushed everything in its way; nor could we fear more from her enmity, than we had endured from her pretended friendship. We were driven to a crisis, when we must either have resigned our sovereignty as a nation in peace, or vindicated it by war. That the war is just, is universally admitted. From every view, which I have been able to take of the subject, I believe it to have been necessary, and that the conduct of the government of the United States in declaring it deserves unqualified approbation.

It is said indeed, and truly, that France has injured us. Her aggressions have undoubtedly been great and numerous; such as our government have strongly remonstrated against, and such as, if persisted in, they must and will oppose by force. But the injuries inflicted by one nation can form no excuse for those inflicted by another. It is no reason why we should suffer wrong from one, that we have been wronged by others. The more correct conclusion would be, that we should repel wrongs, when perpetrated against us by one nation, in such a manner, as to render others cautious how they offered to us either injury or insult. Among nations, as among individuals, submission invites aggression. To spare the humble and subdue the proud, is not the rule of action with mankind.

War has been declared. In whatever light the measures which have led to it, may be viewed, the feelings of every American must require, that it should be pros-

ecuted with vigor. Averse to war, we know that an efficient prosecution of that, in which we are engaged, will be the best security against war hereafter. The crisis has come, when we must convince the world, that we know how to value our rights, and have means to enforce them; that our long suffering of injuries has preceeded from our love of peace, not from any apprehension of the event of war; that our friendship is to be desired, and our enmity to be deprecated.

We have been informed by the President of the United States, and have seen in the public documents, that immediately after war was declared, a proposition was made by our government to the government of Great-Britain for a cessation of hostilities, upon certain just and reasonable terms. "These terms required, that the orders in council should be repealed as they affected the United States, without a revival of blockades violating acknowledged rules, and that there should be an immediate discharge of American seamen from British ships, and a stop to impressment from American ships with an understanding that an exclusion of the seamen of each nation from the ships of the other should be stipulated; and that the armistice should be improved into a definite and comprehensive adjustment of depending controversies." From these terms the welfare of our country requires, that our government should never recede. We can never consent to peace, leaving our commerce a prey to lawless violence; our countrymen in bondage, or our enemy in possession of a claim to enslave them, wherever she can find them on the ocean. The reasonableness of these terms, the conciliatory manner in which they were proposed, and the manner in which they were received and rejected by the British government, if there had not already existed abundant evidence on this subject before, are sufficient to convince us, that we can hope and expect nothing from the friendship or justice of Great-Britain. It only remains for us to compel her to grant to our power what we have so often solicited her to yield to our rights.

A war thus waged for the protection of the property and persons of our countrymen, for redress of accumulated wrongs and future security against such wrongs must have the undivided support of this nation. England openly calculates upon our divisions. During the revolutionary war, her minister publicly professed the ungenerous maxim—"Divide and govern." She was mistaken then. She is mistaken now. The fundamental principle of our constitution is the will of the majority shall rule. To suppose a case, in which this will constitutionally expressed shall not carry the obligation to obey, is to suppose a case, which can not happen. If ever such supposition shall be seriously acted upon, the Union will be dissolved. Nor can I understand the reasoning, which admits to the general government and to its several branches certain constitutional powers, but denies to them the right to determine the time and manner of exercising these powers. To deny to them such right of determination, is to divest them of their authority. It is the most effectual step toward a separation of the States.

Urged by consideration which this subject presents to me, I must again and earnestly solicit your attention to our militia laws. The propriety of revising these laws, and so framing them, as to form an efficient militia, has been so often dwelt upon, that I can present it to you in no new light. I can only add, that our nation is now engaged in war; that our enemy abounds in wealth and is powerful in arms. War has long been her trade; from her we must look for no common struggles. Our situation is exposed to danger. Our safety requires, that we should prepare to defend ourselves. Our militia must be our principle defence. If we will organize our militia, it will be sufficient for us; and I deem it of the first importance that the militia should be effectually organized and disciplined etc etc.

EXTRACT FROM GOV. HASLET'S MESSAGE TO ASSEMBLY JANY 14th 1813

Fellow-Citizens of the Senate, and
of the House of Representatives.

On the 15th of July last, I addressed to the secretary for the department of war, of the United States, a communication requesting that this state might receive a portion of the arms and military equipment, which had been provided under the appropriation for arming the militia of the United States, made by Congress in 1808. The answer to this communication informed me that two hundred and fifty stands of arms had been ordered to Wilmington, two hundred and fifty to New Castle, and one hundred and fifty to Lewis-Town, and also to each place the necessary equipments and ammunition, for the use of the militia of these places in case of emergency—and that Callender Irvine, Esq. superintender of military stores at Philadelphia would be directed to issue on my order five hundred stands of arms, conformably to the law of April 1808, for arming the whole body of militia. This answer I lay before you. You will perceive that the arms, equipments and ammunition thus ordered to be deposited at Wilmington, New Castle and Lewis-Town are under the authority of the United States. I understand that these arms, ammunition and equipments have been deposited at those places. The five hundred stands of arms directed to be issued to my order I have obtained; and under my direction one hundred stands have been delivered at New Castle to the care of Brigadier General Stockton, one hundred and fifty stands have been delivered at Smyrna to the care of Brigadier General Davis, and one hundred and fifty stands have been delivered at Milton, to the care of Brigadier General Fisher; the remaining one hundred stands have been delivered at Milford and are under my own care. The necessary equipments for those arms were procured in consequence of a communication with the secretary for the department of war; the answer to which I lay before you.—These equipments have been delivered with the arms. The number of arms deposited at Wilmington and New Castle induced me to direct to the last mentioned place only one hundred stands.

Upon the application of Captain Kennedy of Smyrna, I instructed general Davis to permit him to receive for the use of his company on training days a sufficient number of those arms and equipments deposited at Smyrna for the use of that company on such days, upon his giving good security for the safe keeping and return of the arms and equipments which he might thus receive. I also upon the same application of Captain Wright of Milton, instructing general Fisher to grant a similar permission to Captain Wright upon like terms, I also gave a similar permission to Captain Adams of Milford, and to Captain Godwin at the head of Cedar Creek, upon their respective applications, they respectively giving good security for the safe keeping and return of the arms and equipments received. I have received no other applications of this nature, and I granted these, being convinced, that such use of the arms and equipments would tend to preserve them.

You will perceive by the third section of the act of Congress entitled "An act making provision for arming and equipping the whole body of the militia of the United States," that the arms transmitted to any state under that act are to be distributed to the militia of such state under such rules and regulations as shall by law prescribed by the legislature thereof.

Under the act of assembly of this state, entitled "an act to enable the governor to make a detachment of the militia, and for other purposes," passed in May last—I have purchased nine hundred stands of arms with the requisite equipments;—this number being sufficient to arm the infantry of this state's quota of militia,

according to the proportions contained in the requisition of the President of the United States. Of these arms, three hundred and twelve stands have been delivered at New Castle, to the care of general Stockton; two hundred and seventy six stands have been delivered at Smyrna, to the care of General Davis; and three hundred & twelve stands have been delivered at Milton, to the care of General Fisher. These arms I procured to be made by a gunsmith, at Philadelphia, of high credit in his art, I could procure none in market which I deemed a proper quality. The arms, which I have procured, have cost thirteen dollars a stand; a price, which arms of a much inferior quality commanded in the market; they have all been inspected and approved. The aggregate amount of the prices of the arms and equipments procured, packed and delivered in Philadelphia, so far as the bills have come to hand, is 14,025 dollars. The bills of freight, which may amount to about sixty dollars, and the bills for gun worms, screw drivers, priming wires & brushes, which will be of small amount, are not included in this sum.

I have not procured field pieces, as I thought it probable, these would be furnished by the United States; and I have not procured arms and equipments for the cavalry, because not being able to procure the returns of the drafted militia, I knew not what number would belong to the detached quota

GOV. JOS. HASLET'S REPLY TO COM. BERESFORD

*"Head quarters, Lewes, March 26th. 1813

Sir—AS the governor of the state of Delaware, and the commander of its military force, I improve the earliest time afforded me, since my arrival at this place, of acknowledging the receipt of your letter of the 16th. inst. directed to the chief magistrate of Lewes.

The respect which generous and magnanimous nations, even when they are enemies, take pride in cherishing towards each other, enjoins it upon me as a duty I owe the state, over which I have the honor at this time to preside, to the government of which this state is a member, and to the civilized world, to enquire of you, whether, upon further and more mature reflection, you continue resolved to attempt the destruction of this town.

I shall, probably, this evening receive your reply to the present communication, and your determination of executing or relinquishing the demand mentioned in your letter of the 16th. inst. If that demand is still insisted upon, I have only to observe to you, that a compliance would be an immediate violation of the laws of my country, and an eternal stigma on the nation of which I am a citizen: a compliance, therefore, cannot be acceded to.

I have the honor to be, sir,
Your most obedient servant,
JOSEPH HASLET,
Governor of the State of Delaware.

to observe that the Demand I have made upon L.t is
in my opinion neither unprecedented nor wanting in that
magnanimity which one nation ought to observe
to another with which it is at war. It is in my
power to destroy your town and the request I have
made upon it is as the price of its security is neither
disgusting nor unusual: I must therefore persist
and whatever sufferings may fall upon the

to your selves, by your not complying

BLOCKADE OF THE DELAWARE

From Philadelphia to the sea, on both sides of the Delaware, the most vigorous and truly AMERICAN efforts are making to resist, repel and punish the enemy, if he shall pollute the soil with the feet of his slaves, or, with incendiary policy, attack the towns. The people of Lewestown indignantly rejected the proffered treason of commodore Berresford, and prepared by every means in their power to repel his designs. At Dover, on Sunday last, in consequence of the movements of the enemy, the drum beat to arms. The whole population of all the various sects and persuasions, religious and political, capable of shouldering a musket, assembled; arms were liberally distributed, and from 400 to 500 men were ready for service. It was pleasant to remark that all the SOLDIERS OF THE REVOLUTION in the neighborhood were present. One old gentlemen who deserves to be named, Mr. Jonathan McNat, tottering on his staff, received his musket, and with hearty will went through the manoeuvres. Sunday as it was, the venerable man (a worthy member and strict observer of the rules of the Methodist church) retiring home, set himself to work, making ball cartridges, affording the youth the fruits of his experience, and presenting an example irresistably leading to patriotism. The force musters frequently for drill, and have made great progress in essentials.

At Smyrna the people are "all alive"—munitions of war are prepared, and all posible means are taken for the defence of that place and vicinity.

At New Castle, the chief control of the defensive measures has been confided to the veteran Capt. Bennett, of the much extolled "Delaware Blues" who, with Gen. Green, earned unfading laurels, in the southern states. This brave man is in his element, and, as colonel, has the command of some well disiplined militia, artillery and infantry.

At Wilmington, the general measures of defence appear submitted, by common consent, to colonel Allen M'Lane, a Seventy-sixer, and "as true as steel." To aid him in his opperations, all "the men of other years," a veteran band of gallant hearts, are on the alert, assisting. Batteries are erecting (or perhaps are erected) below New Castle on the Delaware, and on the Christiana river that leads to Wilmington."

Niles Register March 27th. 1813

The people of Lewestown refused the request, as they ought; and an apology has appeared in a Philadelphia paper for the demand—saying that the commander declared he did not know it would have been high treason for them to comply with the requisition else he would not have made it. He had, perhaps, a better reason for desisting, from the gathering of the people to oppose the landing."

GOVERNOR HASLETS' MESSAGE APRIL 6th 1813

Fellow Citizens of the Senate
and of the House of Representatives,

A British Squadron have arrived in the mouth of the Delaware and are there at anchorage. The commander of this squadron has demanded from Lewistown certain supplies, threatening the destruction of that town, if this demand should not be complied with. A refusal of the demand was the only answer, which the honour of the State or the Spirit of its Citizens permitted

It was incumbent upon me to provide for the defense of Lewistown. I ordered to this place a portion of the militia, made provision for their support and procured supplies of ammunition. But there being no appropriation made by law for these objects, I deemed it my duty to proceed no further than the emergency required, without the sanction of the legislature. I have therefore taken the earliest opportunity to convene you, to the end that such appropriations, as you in your wisdom may deem expedient, may be made for the common defence.

I need not call your attention to the points for attack or incursions, which our shores present to the enemy. Our situation is well known to you, nor need I suggest, that dispositions should be made efficiently to resist such attacks and repel such incursions. The militia when called into service must be supplied with provisions and ammunition. Probably public stores of ammunition to be deposited at different places in the several counties to be delivered under such regulations, as would prevent a waste of the ammunition and secure a return of it, if not properly expended, would be advisable. You will determine what appropriations for these purposes are expedient and what regulations concerning military stores are proper to be made

I submit to you whether it would not be proper to authorize the organization of more volunteer companies than the existing laws allow, and whether it would not be useful to render the militia law more energetic. The performance of militia duties under a loose system is the most irksome of labours, under a perfect one, the most agreeable of recreations.

I lay before you copies of two communications, which have been received from Commodore Beresford, also a return of the force at Lewistown.

GOVERNOR HASLET'S MESSAGE APRIL 7th 1813

Fellow Citizens of the Senate and
of the House of Representatives,

I lay before you a communication received this morning by express from S. B. Davis Esq. commanding at Lewistown. By this you will perceive, that the enemy have commenced an attack upon that town.

I lay before you a return made by David Paynter Esq. commissary at Lewis. stating, as nearly as he could, the supplies furnished for the militia at Lewistown with an estimate of prices. An extract of a letter from Mr. Paynter accompanies this return.

I lay before you an account of certain sums, which I have obtained for the public service and the manner of the application of these sums, so far as the same have been applied.

Brigadier General Stockton procured by my order twelve kegs of powder at eighteen dollars per keg; and I obtained on loan from the United States two thousand flints and five hundred and two.....pounds weight of lead. I could not otherwise procure these articles. I also obtained from the United States on loan 319 balls for field peices and 226 lbs of grape shot

I lay before you a communication received from the Department of State, the subject of which was heretofore submitted to the consideration of the legislature, but I have not been informed of any resolution adopted concerning it.

I also lay before you a second communication received by express this morning from Lewistown.

JNO. STOCKTON TO GOV. J. HASLET

Wilmington Apr 6th 1813

Dear Sir

Enclosed you will receive three Accts for charges as therein stated, I have made myself responsible to the persons who performed the duties, Capt. Warner has a bill for the purchase of lead, to what amount I dont know.

The munitions of war loned to the state by the commissary of the United States in Philada, the state of Delaware will I expect take on themselves, so that I can take up Mr Watson's receipt.

The six casks of powder will be forwarded by the Dover stage if they will take it, with the bullet moulds if they are finished.

Our Battery at the Rocks is nearly completed, and that by voluntary labour, whole Military Companies turn'd out to work day about, it has cost the Corporation nothing but a few Rations, and the expense of platforms for the guns to be worked on.

EXTRACT FROM A LETTER FROM DAVID PAYNTER, ESQ.

"You will find enclosed a list of the different kinds of articles that have been received including the prices that have been ascertained and paid for some articles, and the supposed prices of others. I will take the liberty of observing that supplies of provisions can be obtained at least 10 per cent lower when the money is in hand than when ever a very short credit is craved. I am confident a considerable discount can be had on the bills already received for cash. I will mention one conditional bargain that I have made in the purchase of two Hhds of brandy—if the money is paid in a short time the price is to be 87 1-2 cents—if not paid in a short time it is to be $1.00 pr. REPORT OF COMMITTEE RELATING TO BRITISH SQUADRON

Mr. Clayton, from the Committee to whom was referred, so much of the Governor's message as relates to the British Squadron in the Delaware, and the preparations for defence, make the following—

Report in part, That the General Government having the sole power to declare war and make peace, to raise and support armies, and to provide and maintain a navy, are also vested with full power to call forth the militia to execute the laws of the union, suppress insurrections and repel invasions; to lay and collect taxes, duties, imports and excises; to pay the debts and provide for the common defence and general welfare of the United States; your committee consider that it was the duty of the government of the United States, as a measure of precaution, before or immediately after the declaration of war, to have taken such measures as would have secured the country from the incursions of the enemy. That this State being exposed on a coast of upwards of a hundred miles, and liable at any moment to be attacked, demanded the particular care and protection of the general government. For this purpose supplies of ammunition and arms at least should have been afforded, and an order given to the executive to call into service the detached militia, and a naval force adequate to the defence of its waters should have been stationed in the Delaware. No aid has been offered, if we except a loan, or rather a deposit in the hands of the agents of the United States, of a few muskets.

For more than three weeks past the Delaware has been blockaded by a British ship of the line, a frigate and a small schooner; soon after the arrival of this squadron within our capes, Commodore Beresford, the commanding officer, demanded of the people of Lewestown, a supply of fresh provisions, threatening, in case of refusal, to destroy the town. A prompt refusal was returned. In consequence of which the British endeavored to carry their threat into execution, and for several days bombarded the town. The militia and the citizens of the town made a brave resistance and at length compelled the enemy to withdraw.

Your committee further state, that soon after the arrival of the squadron in the bay, the Governor communicated the fact to the President of the United States, together with the threat of Commodore Beresford, and requested to be furnished with ordinance and ammunition for the defence of Lewestown. This request has not been complied with.

The Government of the United States has therefore manifested a total indifference and disregard to the interests and security of the people of this State, and has withheld that protection to which they are entitled by the Constitution, and by the resources drawn from them.

The people of this State bear a full share of the burdens of government, and have a right to demand its protection.

Your Committee report the following resolutions:

Whereas the commanding officer of the British squadron now in the Delaware bay, hath threatened the destruction of the town of Lewes, and actually did attack the said town on the 6th & 7th instants, whereby considerable damage hath been done to several houses in said town; and whereas, the want of cannon, powder, ball, and a sufficient number of muskets, bayonets, flints, bullet moulds, and all other the munitions of war, as well at Lewes as in other parts of the State, will probably induce the enemy to renew their attempt to destroy Lewes, and to attack our other exposed towns and situations on the shore of the Delaware, and do great injury to many of our citizens; and whereas our citizens are unprovided with camp-kettles and

all other articles necessary for soldiers; and whereas, it is deemed just and right that the United States should render their assistance to this State, at this time of danger and difficulty; and that the burdens and expenses of the war now carried on against the United States, in the attack made on the people of this State, should be born by the United States, and not exclusively by the people of this State; Therefore—

Resolved Unanimously, by the Senate and House of Representatives of the State of Delaware, in General Assembly met, That the President of the United States be requested, and he is hereby requested, that immediate means be taken to aid and assist, and to defend this State against the common enemy of the United States, and that the militia of this State be supplied with cannon, powder, ball, muskets, bayonets, flints, bullet moulds, lead, camp kettles, and all other the munitions of war, and provisions necessary for men fighting against the enemy of the United States.

Resolved Unanimously, That the President of the United States be requested, and he is hereby requested, to give to the Governor an order to call into service the detached militia of this State for the defence thereof, and that the pay and subsistence of the militia of this State, in actual service, be put on the establishment of the United States.

Resolved Unanimously, That the President of the United States be requested to order to the Delaware a sufficient naval force for the defence thereof.

Resolved Unanimously, That the speaker of the Senate (the Governor being at Lewes) transmit forthwith by mail to the President of the United States an attested copy of these resolutions.

JNO STOCKTON TO E. I. DuPUNT

Dear Sir.

By express from Govenor Haslet this morning at one o'clock the enemys Ship Belvidier, had commenced cannonading Lewis Town. In addition to the number casks of powder, I am directed to get 10 more of Cannon Powder. please to send them this day to Mr. Dixon's Store.

DAVID PAYNTER TO GOV. HASLETT

Lewes Ap. 11. 1813

Dr Sir.

Agreeable to your request I inclouse an estimate of expenses for the Melitia in Provisions, Foirage, Wood, and War Munitions to this date, that have been received at our department. I am in hopes it will Soon be in our power to assertain the Amt. of all the other expences in erecting the Fortification, mounting the Cannon and quartering the troops of Melitia, as I have advertised for all those who have furnished any thing or rendered any Service in this way to hand in their Accts regularly made out, and have already received a number of those kind of Bills, this business has been carried on with Such precepitation hurry and confusion

I am much afraid the settlement of those Accts will be attended with a great deal of confusion and trouble, the immediate want and pressing necessity for the numerous kind of articles in this way made it quite impossable to enter into special contracts for those supplies. in short a field is opened for extortion and rogary unless their is some means taken by the Legislature to regulate the prices, and cause the Acct to be proven

Your excellency. hum St.

Niles Register April 17th. 1813

"On the 6th. inst. according to the prospect held out in the last Register, the British commenced a furious cannonade on Lewestown, which lasted for 22 hours. It has been estimated that they fired 800 shot, 18 and 32 pounders, at the place, besides shells, carcases, and the famous Congreve rockets. Many houses were damaged, but no loss of men on our side is reported. The shells fell short and the rockets passed over the town. The fire was returned with good interest, and it is thought with great effect, from an 18 pounder and two smaller pieces, excellantly served. At the beginning of the action, our stock of shot was short; but the enemy furnished a plentiful supply, which fitted the calibre of our cannon exactly—they were diligently collected and promptly returned."

April 10th 1813

The committee to whom was referred so much of the Governor's message as relates to the British squadron in the Delaware, and the preparation for defence, further report,

That it will be necessary to make provision for defraying the expenses incurred in the defence of Lewestown; and that commissioners be appointed to liquidate and settle the accounts of all persons having claims against the State on account of said defence,—

That the sum of thousand dollars ought to be appropriated by law to cover the said expenses, and to make preparation for the general defence of the State.

That for the purpose of raising the necessary sums of money the committee would advise the sale of the stock belonging to the State in the bank of Philadelphia; and that a tax should be imposed so as to raise the State tax of the present year to twenty-one thousand dollars; and that, in the meantime, a sum sufficient for the present exigencies should be raised by loan from one or more of the banks in this State; provided the interest do not exceed the common rate of bank interest.

Resolved, That a committee of three be appointed to prepare and report bills making provision for the foregoing purposes.

On motion,

Said report was read and adopted,—and Messrs. Read, Stout and Cullen were appointed on said Committee.

AFFIDAVIT OF WM PRIOR APR 25th 1813

Examination of William Prior taken at the House of Abraham Sharpe in Kent County at Little Creek landing on this 21 day of April in the year of our 1813, who being duly sworn doth depose and say; that he sailed from Quincy in the State of Massachusetts, on board the ship William & Henry bound to Alexandria in the State of Virginia, in ballast, on the 8th day of February last and arrived into the Chesapeake on the 14th following and was ordered off by the blockading squadron under the command of Commodore Burdett of the Maidstone frigate and came round and arrived at Philada. on the 22d of the same month, where he discharged his crew and left his ship the said William & Henry in the care of Jonathan Worth & Compy. That this examinant, bought the schooner Pilgrim and shipt on board of her a load of flour belonging to Rishaw & Wiley of Philada. and consigned to Mr. Wiley of the said firm then at Boston.....that he sailed from Philada. in the said Pilgrim on the 3rd instant and on the 9th instant off Little Egg Harbour, was captured by a Tender, a schooner belonging to the Poictiers and was carried on board the Poictiers on the 11th inst. where he has remained a prisoner until this day.....that this examinant being desirous of being liberated from his imprisonment, was promised by the Commodore that this examinant and his crew should be liberated provided he would come ashore and procure some fresh stock for his ships crew, as he was going to sea in a few days. Whereupon at 8 o'clock this morning this examinant came up the bay of Delaware in the Schooner Pilgrim commanded by one of the Lieutenants of the Poictiers as a flag of truce; that there are about twenty five men on board the said schooner, which now lies off the Creek's mouth abreast of Mahawn's ditch; that we landed in a boat in the creek, about half past four o'clock this afternoon and arrived at this house about half past five; that the boat in which this examinant landed, was manned by about 18 men that the officers of the Pilgrim were commanded by the Commodore, to molest no person nor to take anything but what they should pay an ample price for; that the motive of this deponent in undertaking this business was to procure the liberation of a number of his fellow prisoners, who are suffering aboard the Poictiers and anxious for their freedom; and left as a security for his return the whole of his clothes, books, charts &c together with his Parole of honor to do the same; that since this examinant's captivity he has messed with James Philips (when aboard the Poictiers) who is Master's mate on board the said ship and came ashore with him to this place; and further this Examinant says not.

Taken, sworn & subscribed before me the day aforesd.

*Niles Register May 1st. 1813

"Wilmington, April 28th.

"Extract of a letter from a gentleman in this borough dated Dover, April 23rd. 1813.

An alarm took place the night before last, which occasioned almost all our citizens to march. The schr. Pilgrim, a tender of the Poitiers, lay off the mouth of Little creek, while a barge containing 22 men came up the creek as far as Taylor's gut, where two of the men landed, under the guide of a black man, whom they took with capt. Bell's shallop last Sunday. The two men shortly after landing came up to Abraham Sharp's at Little creek landing, where they were made prisoners, by our people—

They pretended that they came with a flag of truce, and that their object was to procure some live-stock. Their depositions were taken. One of them was a New England captain, who cammanded (he swears)

(The above affidavit follows)

Niles Register May 8th. "The American captain seized in Delaware, as a traitor has been conducted to Philadelphia, and lodged in jail. On inspecting the gentleman's pockets, six rarities appeared—such as a man might travel half over England without seeing—six English guineas."

Head quarters Lewis Town 25th April 23. 1813

Sir) Two Men on James Philips of the Porters and the other William Price an American Citizen alleges to be a Prisoner on board that Ship were on the evening of Wednesday last taken at Little Creek landing in the State of Delaware and have been conducted to head-quarters at this place. They had no flag of truce with them when they approached and arrived at the landing, no such flag was seen by any of our Citizens. These Men had no written Message, warrant or credentials.

On Thursday Morning a flag of truce arrived at the landing, this flag was accompanied by an Armed force— I must request information upon what ground an American Citizen a Prisoner on board your Ship accompanies a flag of truce in matters relating to himself, and more especially, on what ground an armed force is sent upon our Shores with a flag of truce.

I have the Honour to be Sir
your very Hble Servt
Joseph Haslet Commander in
chief of the Militia of Delaware.

Commodore Beresford
Commanding his Britanic
Majestys Ship the Porters
in the Mouth of the Delaware.

Poictiers in the Delaware
25th Apl. 1813.

Sir

In answer to your letter of this days date, I have to reply that Mr. James Phillips Master's Mate of the Poictiers, went on Shore under the protection of a Flag of Truce flying at the main mast head of the vessel which conveyed him up the River.

William Prior whom you Mention is a citizen of the United States, & would not of course have landed except for the express purpose of serving himself & fellow Prisoners, and to do which I sent him on Parole

With regard to an armed force accompanying a Flag of Truce, I have to observe that Lieut Lowes who was charged therewith has informed me, that after finding Mr. Phillips had been detained, in violation to the general respect paid thereto; thought it a very necessary precaution for his personal Safety; indeed I was much displeased

To The Hon.ble
Joseph Hamlett &c &c &c

to find out his reasons, that he had not Shewn his Authority, & also that he had gone on Shore Armed.

I have the Honor to be
Sir
Your most Obed.t Servt.
J P Beresford
Commander &c &c

P.S.

It is not usual for Boats or Officers leading to carry a Flag of Truce from the Vessel on board of which the Flag is hoisted.

RESIGNATION OF HON. J. A. BAYARD.

Wilmington, 3 May 1813.

Sir:

Having been appointed by the Government of the U. States a Minister to the Court of St. Petersburgh and having accepted the office I avail myself of the first moment after receiving my commission to perform the duty of making known to you the fact as the acceptance of the appointment is on my part an implied and virtual resignation of my seat in the Senate of the U. States.

You will of consequence Sir accordingly communicate this resignation to the Legislature at their ensuing session. I have the honor to be

with great respect

His. Excell.
GOVERNOR HASLETT.

Your Ob. Ser.
J. A. BAYARD.

GOV. HASLET TO JAS. RIDDLE

Cedar Creek Sussex May 7th 1813.

Dear Sir,

I received your several communications and note the contents. I regret very much I was absent from home when yourself & Mrs. Riddle was at my House I should have been happy to have seen you—the application made by the Military Council of Newcastle for the sum of five thousand dollars being part of the money directed by the Legislature to be applied in defending the State against the common Enemy cannot at this time be furnished for the following reason, the pay & rations of the Officers and Men who have been in the service of the State for near two months are not yet paid, those claims together with others which must be immediately discharged will reduce the sum directed by the appropriating act so much that the sum required by the Military Council cannot I presume be furnished. It is my wish to do any thing that is practicable and consistant for the safety of your place, the Legislature will soon be in Session and should the Gen. Government render you no aid in defending your town previous to the commencement of the Session—I shall certainly call their attention particularly to this subject, you may however in the present moment of danger conceive that all this is doing nothing, I would beg leave to observe to you on the present emergency the imediate necessity of your compleating the fortifications at your place and depending on a remuneration either from this State or the United States. My impression at present is, that your Town will be attacked by the Enemy and that probably in a short time, you should be on the alert. I feel for you much—

In reply to your application for a military appointment I have to observe to you that there is not such an office as Colonel of Cavalry recognized in our Militia law it would afford me infinite pleasure to confer any appointment on you that would be acceptable to you—and which could consistanly be done,

You will please to escuse my not writing before this, a press of business has prevented—

In great haste, I am with great respect
Your obt. Hb. Serv.

H. M. RIDGELY TO GOV. HASLET.

Dover—7 May 1813.

Sir

On the 28th of last month, W. Hall Esquire, the Secretary of State, put into my hands your letter of that date stating that you had made application to Joseph Bloomfield Esquire Brigadier General Commanding the military district No. 4 and to William Duane Esq. Adjutant General of that district, for the supply of one thousand stands of muskets with the requisite equipments and a supply of ammunition for them, six four pounders for field pieces mounted with the requisite implements, & a supply of ammunition for them, and arms for sixty troopers, and requesting me to proceed to Philadelphia with your letters to those gentlemen, and to receive and provide for the conveyance of such arms and ammunition as should be furnished pursuant to the said application: At the same time Mr. Hall delivered to me your letters to General Bloomfield and Adjutant General Duane. The next morning, pursuant to your request, I started on my journey. At New Castle, James R. Black Esquire, whom you have authorized to proceed to Philadelphia for the purpose of

procuring large cannon for the defence of the State, joined me, and we arrived in Philadelphia on the last day of April, about two o'clock in the afternoon. In the course of the afternoon we called twice at the House of Mr. Duane and were informed, each time, that he was not at home. We also went to the head quarters of General Bloomfield and were told that he was out of the City and would not return before the next Monday. In the morning of the first of May we again repaired to General Bloomfield's headquarters and delivered to Adjutant General Duane your letters addressed to him, and also those to General Bloomfield: He told me that as it respected four pounders there were none of them in Philadelphia at the disposal of the United States, they being now considered as of little use for any purpose. I then suggested that six pounders might perhaps be supplied instead of them; he replied that all the six pounders in Philadelphia were wanted for the light artillery of the army of the United States. As it respected the arms for the troopers, he informed me that there were none, all having been sent to the army on the northern and western portions of the United States. Some muskets he thought might be furnished, & he promised that he would, that day, call on the Commissary General to inquire what arms could be supplied. He also this day wrote to your Excellency and sent under cover to me at my lodging the open letter I now enclose.

On Monday the 3rd inst Mr. Black & I called on Mr. Duane. He informed me that he had seen the Commissary general and that the United States would so far comply with the requisition of the Governor, made thro' me, as to supply arms and equipments complete for such portion of the militia of Delaware as should be taken into the Service and pay of the United States, so soon as they reached the place of rendizvous and were reported to General Bloomfield, and that they could not further comply with the said requisition.

About the middle of this day General Bloomfield arrived in Philadelphia, and in the afternoon Mr. Black and myself waited on him and had much conversation with him on the subject of our mission. So far as it regards that part of the requisition made thro' me, he told me that the United States could not furnish either four or six pounders. That he thought it probable arms for Sixty troopers could be supplied, but that they were old and rusty. With respect to the muskets he promised that so soon as any portion of the militia of Delaware were taken into the service and pay of the United States and reported to him as having arrived at the place of rendizvous, they should be immediately armed and equipped completely by the United States.

It was considered as unnecessary for Mr. Black and myself, both, to remain longer in Philadelphia as the receipt of either of us would be deemed sufficient for any arms or ammunition of any kind that could be furnished, and as Mr. Black consented to stay for a day or two longer, I left the city on the morning of the fourth inst. on my return.

I have the honor to be
Sir,
Your ob. Ser.
H. M. RIDGLEY.

ADJ. GEN. DUANE TO GOV. HASLET—WORK AT PEA PATCH

Adj. Gen. Office

JOHN HASLETT, Esq. Phia. 20 may 1813

Governor of the State of Delaware

Sir

General Bloomfield is this moment returned from the Jersey section of this district and askes me to acknowledge the receipt of yours of the 14th to which he will particularly reply in the course of this evening or tomorrow—he would immediately, but the advice of the fall of his nephew alongside Gen Pike at York in Canada, has had the natural effect on the best of hearts.

The Secretary of war is in favor of the erection of a work on the Peapatch—The laws of the U. S. do not permit any work to be erected without a ceding of the soil to the U. S. Your state will I presume contribute four or five thousand dollars; Jersey as much; and this city I trust will be liberal as it should be—as your legislature is or will be soon in session, permit me to offer these points to your consideration.

On the subject of your letter to me, as it is of the same tenor with that to the General, I shall await his orders, conceiving myself at liberty to act on my own authority in original measures, only when he is not on the spot, in the details my duties principally arise. I have the honor to be

with Great respect

JACOB ASH Capt.

MESSAGE OF GOV. JOSEPH HASLET MAY 25, 1813.

Fellow citizens of the Senate
and of the House of Representatives,

I have obtained, on loan, from the United States, under the orders of Brigadier General Bloomfield, four eighteen pounders with a supply of ammunition for them for the defence of Lewistown. Cannon and ammunition have also been furnished for the defence of New Castle and of Wilmington.

The Secretary for the Department of War by a communciation under date of the 17th of April last made the following requisition of the Militia detached under the Act of Congress of April 10 1812—viz— of Infantry—one Lieutenant Colonel, one Major, three captains, three first Lieutenants, three second Lieutenants, three third Lieutenants, three Ensigns, three hundred Rank & file and one Surgeons mate; and of Artillery—two captains, two first Lieutenants, two second Lieutenants, two third Lieutenants, two Ensigns, two hundred Rank and file and one surgeons mate; the whole to rendezvous at Newcastle as expeditiously as possible and to report to Brigadier General Bloomfield commanding the Military District No. 4. I afterward received from the Secretary at War a letter acknowledging the receipt of the certified copy of the resolution passed at your last session, which copy I transmitted to the President of the United States immediately upon receiving it. I issued orders for complying as far as practicable with the requisition of the 17th of April; and at the same time I informed the Secretary of War that

the requisition for artillery could only in part be complied with, and that the safety of the state would require a greater number of the detached Militia to be called into service. In answer to this information the Secretary at War directed, that What of the requisition of the 17th of April for Artillery could not be afforded should be made up with Infantry, and that in case of Emergency I should call forth another Battalion of drafted Militia composed of the same number of officers and privates as was demanded under the former requisition. Considering that in the present Emergency, the whole of the detached Militia would be necessary to the defence of the State, I have under the last requisition called forth the whole of the detached Militia, the cavalry excepted, a part of which detachment is to rendezvous at Lewistown, the residue at Newcastle and the whole to be reported to Brigadier General Bloomfield immediately upon their arrival at the places of rendezvous.

I have since received a communication from General Bloomfield, in which he mentions that three hundred and fifty men of Pennsylvania Militia had been ordered to Stanton, from which place they were to send daily patrols to Newcastle, Wilmington and the Maryland line.

I have in consequence discharged the Militia, who have heretofore been employed for the defence of Lewistown, excepting a company, inhabitants of that place, who have heretofore been employed at the batteries and without whose assistance the guns cannot be managed, and a small detachment of cavalry. As these have been deemed necessary, I shall make arrangements, if possible, for their being placed in the pay of the United States.

I made application to General Bloomfield for a further supply of muskets for the Militia of this State. These could not then be furnished, but I received information from General Bloomfield, that as soon as any portion of the Militia of this State were taken into the pay of the United States and reported to him as having arrived at the place of rendezvous, they should be immediately armed and equipped completely by the United States.

The erection of a fort upon the Pea Patch is a subject which I deem it my duty to submit to your consideration. The United States will erect a fort in no place, unless the Site be first ceded to them. It has been represented to me that the Pea Patch is private property. I have understood, that the City of Philadelphia will contribute to the erecting of a fort at that place. New Jersey will probably also contribute. The appropriation of a sum of money for this purpose by this State would probably bring forward these contributions.

The honourable James A. Bayard late a Senator for this State in the Congress of the United States, has been appointed to, and accepted, the office of, Minister to the Court of St. Petersburgh. He has communicated to me his acceptance of this office and his consequent resignation of his seat in the Senate of the United States. His letter to me on this subject I lay before you.

I also lay before you an Act of the General Assembly of the commonwealth of Pennsylvania concerning the Delaware and Chesapeak Canal. By this Act you will perceive that the Governor of Pennsylvania is authorized to subscribe for 375 shares in the Delaware and Chesapeak Canal Company, if the United States will subscribe for 750 shares, the State of Maryland 250 shares and the State of Delaware 100 shares in the said Company.

JAS. RIDDLE TO GOV. HASLET

The undersigned beg leave respectfully to represent to his excellency the Governor of the State of Delaware that they have been informed of the organization of a volunteer corps of Light Infantry in the Town of New Castle & that the persons selected by such Company as officers are about applying for Commissions. That there are now in and on the immediate neighborhood of this Town, Three companies of Militial, viz. Two volunteer and one regular militia company, neither of which have their full complement of men. That the above mentioned volunteer association is composed in part of those who belong to one of the three other Companies. That it follows that this plan of a fourth Company will considerably weaken if not destroy those already formed. We submit therefore the inexpediency of legalizing the proceeding of the said Corps by granting them commissions.

New Castle May 25 1813.

JAS. RIDDLE.

PEA PATCH CEDED TO THE UNITED STATES

An act ceding to the United States of America the Jurisdiction which this State has over the Pea Patch on certain conditions therein mentioned.

Be it enacted by the Senate & House of Representatives of the State of Delaware in General Assembly met That all the right title and claim which this State has to the jurisdiction and soil of the Island in the Delaware commonly called the Pea Patch be and the same is hereby ceded to the United States of America for the purpose of erecting Forts Batteries & Fortifications for the protection of the River Delaware and the adjacent country upon the Condition nevertheless that the said Forts Batteries and Fortifications shall be erected and kept up at the expense of the United States and also that all process civil and criminal issuing under the authority of this State may be executed and served within the place the Jurisdiction of which is hereby ceded as aforesaid in the same manner as if no such cession had been made.

Passed May 27th 1813

(Niles Register June 5th. 1813).

"It is stated that the legislature of Delaware have ceded the "Pea-patch" (a marshy island in the river a few miles below New Castle) to the United States, on condition that a fort is erected thereon; which, it is said, gen. Bloomfield has promised to have done immediately. The policy of this measure, we think, doubtful. While the enemy commands a superior naval force we should have nothing to do with islands, where the communication with the main can be so easily cut off, as in the present instance.

June 12th. 1813

"The common council of Philadelphia have voted $20.000 to erect a fort on Pea Patch.

(Niles Register May 15th. 1813).

"The following is the official letter of gov. Haslet, of Delaware, to col. Davis, for his defence of Lewestown:"

Head quarters, Lewes, April 19th. 1813

"The governor and commander in chief feels much satisfaction in presenting his compliments to Col. Samuel B. Davis, and the officers and privates, who acted under his command on the 6th, and 7th. of this instant, for their promptness and alacrity in defending the town of Lewes, on the days, during the cannonading by a squadron of the British he now tenders them his thanks and expresses his entire approbation of their ZEAL, ACTIVITY and PATIENCE, displayed on that occasion, and hopes their patriotic example will be emulated by those militia corps, who may be ordered to repair to the standard of the country.

JOSEPH HASLET"
