Remarks — I can only repeat the My observations made on the 16th respecting the Rooms — that their Crowded Situation precludes the possibility of keeping them in the Order which the health and convenience of the Men require

The Hospital is in its usual State of Cleanliness and good order

It appears, that either from the Negligence or design of the Centinals on post — the Men of the Garrison have a facility in getting out which will prove very destructive to good order & discipline — two cases were detected yesterday — Matthews & J. Riley were both out without Leave

Sergt. Comstock & Danaker appear to pay more attention to order in the Rooms than any others

W. M. Shoemaker
Ensign 1st U. S. Infantry
Officer of Guard

Remarks – I am of opinion that the yard attached to the East wing of the Barracks is in a situation at present to create air which may produce – jail fevers, Camp fevers, or any disease which foul air and Crowded apartments are calculated to encourage – Major Shoemaker informs me that he will be able on monday next to Remedy this evil —

There still exists a considerable Relaxation on the part of the Centinels on post men do continue to pass them without the necessary passes – I found on the beat of the officer of the Guard and his guard collected more than usual attention
